KIDDIE ACADEMY
EDUCATIONAL CHILD CARE

MAY 2026 NEWSLETTER

Easter egg hunts, new playground area, Earth Day celebration, and picture day! Laughter and learning filled our center in April as the children explored the environment and continue to nourture friendships in the classroom.

CONNECTION

Learning through play with others brought lots of smiles. Our Pre-K learners helped each other match math puzzle cards, find treasures in the sand table, and create learning posters for their classroom.

CURIOSITY

Hands-on learning is the best! Our students went on nature walks to explore the natural world around them. They had so much fun seeing and touching different plants.

CHARACTER

Our little learners were such good citizens. They helped take care of the Earth last month by planting seeds and sorting trash from recyclables.
